**It's The Holiday Season
Time to Start Thinking About Shortwave Listening!**

Here is our yearly article on short wave listening. Last year I provided a list of actual stations heard and a partial listing of shortwave broadcasts. This year I am giving you the complete listing from Primetime Shortwave. This listing was updated at the end of November, so it is current. This is a long list but since this is not a hardcopy publication, it's just electrons! You can access the site (which has a lot more information) at <http://www.primetimeshortwave.com>.

For those of you who have heard the

statement that short wave broadcasting is dead, you might be somewhat surprised at the amount of information in this list.
